### Making Changes in the file and commit

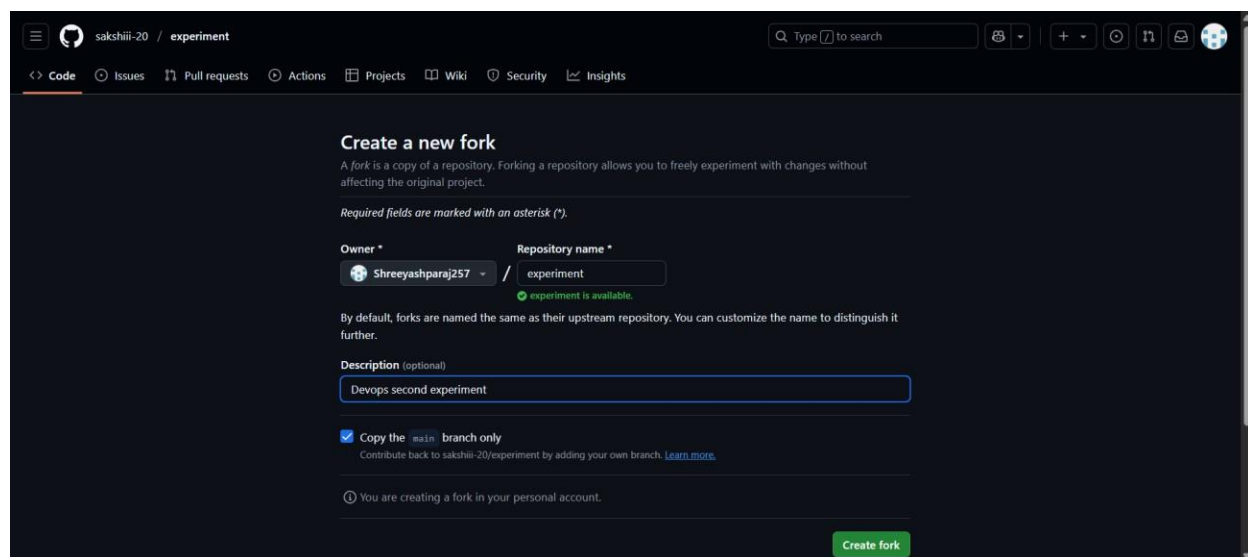

## Creating a Pull Request

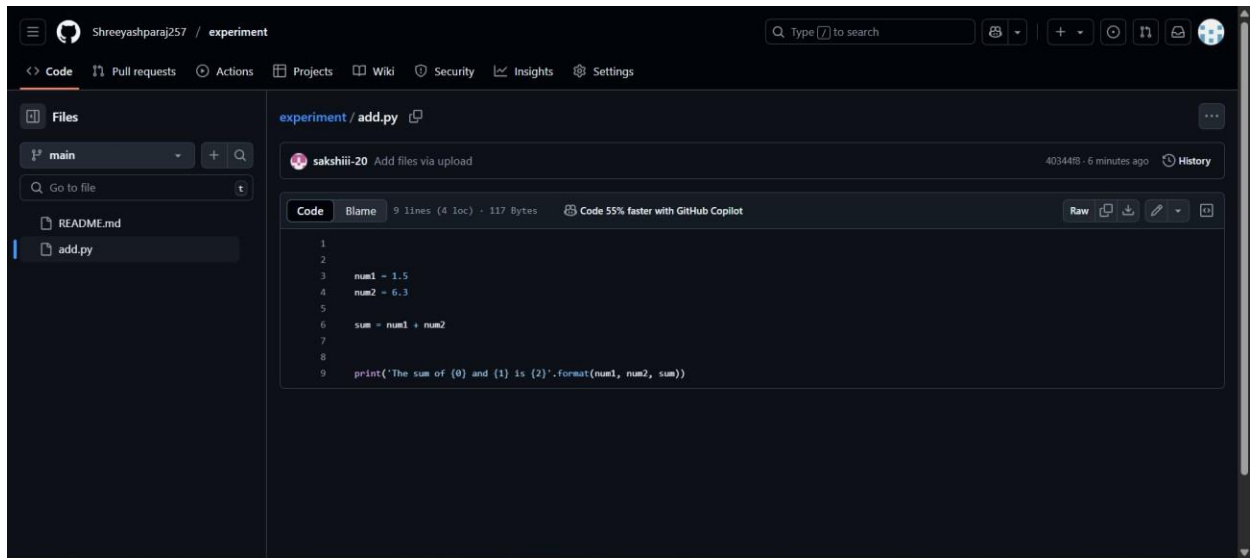

## Merged the changes

## creating a fork request

## The Changes that have been Merged by one of the collaborator

The screenshot displays the GitHub interface for a repository named "experiment" by user "Shreyashparaj257". The "Code" tab is selected, showing the file "add.py". The file was added via upload by user "sakshiii-20" 403448 seconds (6 minutes) ago. The file contains 9 lines of Python code. The code is as follows:

```
1
2
3  num1 = 1.5
4  num2 = 6.3
5
6  sum = num1 + num2
7
8
9  print('The sum of {0} and {1} is {2}'.format(num1, num2, sum))
```

The left sidebar shows the file explorer with "main" branch selected and files "README.md" and "add.py". The top navigation bar includes links for Code, Pull requests, Actions, Projects, Wiki, Security, Insights, and Settings.
